Attention to Detail

Willingness to Learn

These strengths help him work steadily across requirements, implementation, testing, and refinement.

Technical Skillset

A practical stack for designing and building responsive web experiences.

Frontend

Creating responsive, interactive pages and clear user interfaces.

- HTML
- CSS
- JavaScript
- React
- Angular

Backend and Data

Supporting application logic, database storage, and data-aware thinking.

- PHP
- MySQL
- Python
- Data Analysis

Product Delivery

Working across documentation, presentations, collaboration, and user-focused refinement.

- Word
- Excel
- PowerPoint
- Teamwork
- English

Featured Project: GuideMe

A tourism platform designed to connect travelers with local tour guides.

Project Objective

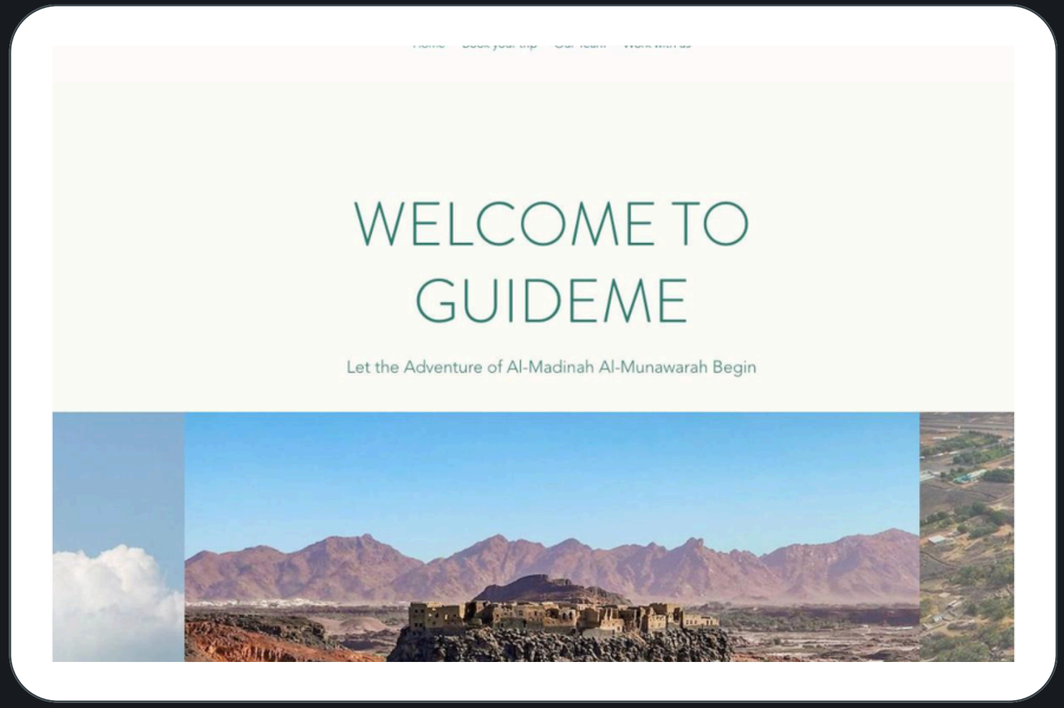

GuideMe connects travelers visiting Al-Madinah Al-Munawwarah Province with local, experienced tour guides. The platform supports discovery, booking, communication, and guide visibility.

Problem

Travelers need reliable guides who can offer personalized tours. Local guides need better access to potential clients.

Solution

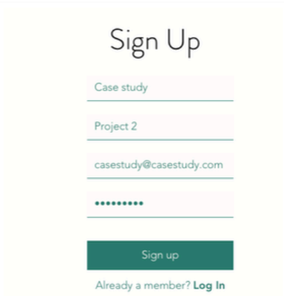

A web platform for tour browsing, booking, ratings, profiles, and guide application workflows.

www.guidememedina.com

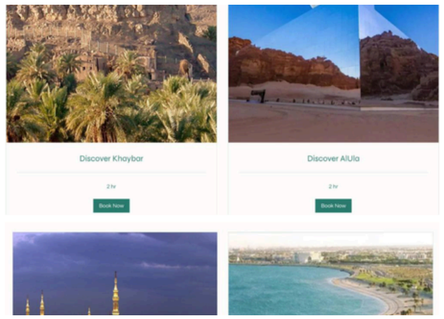

GuideMe Product Flow

The project serves guests, travelers, and local tour guides through a clear booking journey.

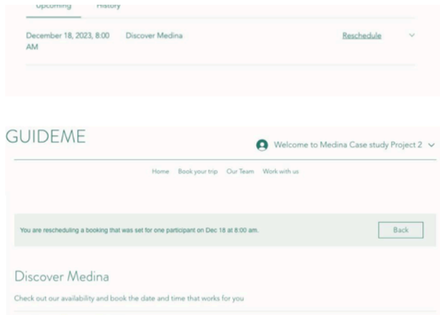

01 Register

Users create an account as a traveler or tour guide.

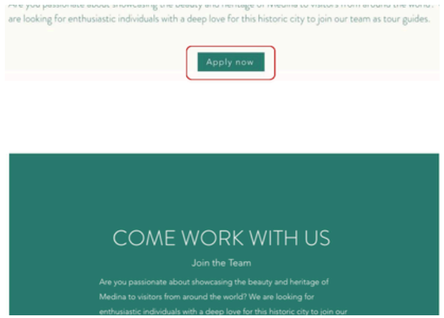

02 Browse and Book

Travelers explore tours and reserve available experiences.

03 Manage Trips

Travelers can view, reschedule, or cancel bookings.

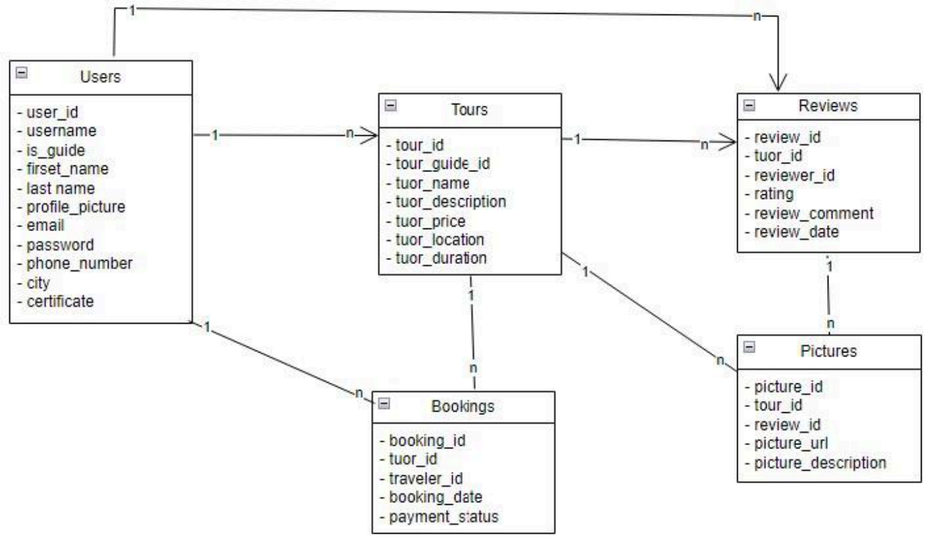

04 Become a Guide

Local guides can apply and market services to visitors.

System Design and Technology

A structured web project with defined users, tours, bookings, reviews, and media.

Data model: users, tours, bookings, reviews, and pictures.

Technology Stack

HTML · CSS · JavaScript · React · Angular · PHP · MySQL

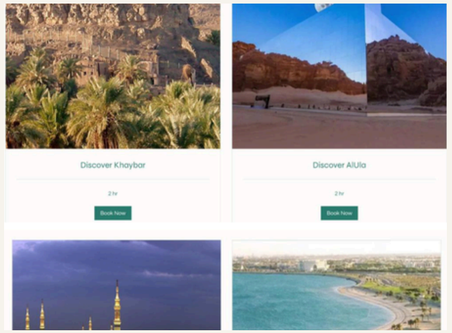

Design Qualities

- Usability and responsive interface
- Security for account data
- Reliable booking workflow
- Scalable tour listings
- Localization for different users

PORTFOLIO

Selected Project Interfaces

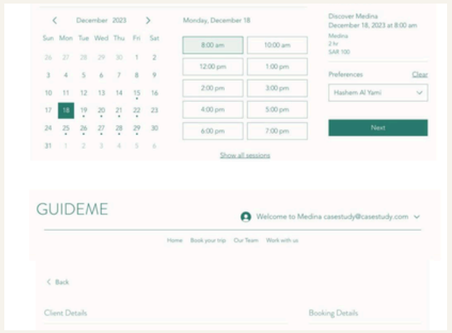

A gallery of key GuideMe workflows from the project report.

Booking Cards

Travelers choose tours and book experiences.

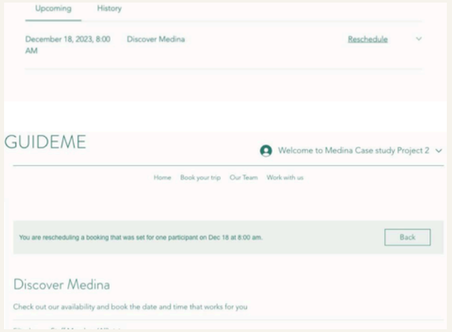

GuideMe

Booking Details

Forms collect the required trip and traveler details.

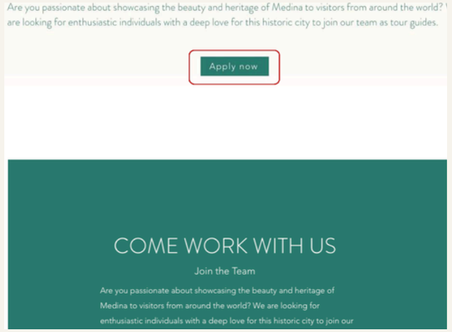

GuideMe

Rescheduling

Users manage and reschedule existing bookings.

GuideMe

Guide Application

Local guides apply to join the platform.
