WESSAM DHAIFALLAH ALOMARI

Full-Stack Developer | Computer Science Graduate

wessam.d.alomari@gmail.com | +966 058 038 7424 | Jeddah, Saudi Arabia | Open to Relocation

LinkedIn: Wessam Alomari | GitHub: wessamAl

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on full-stack development experience spanning frontend, backend, REST APIs, and relational databases (PostgreSQL, plus academic exposure to MySQL/Oracle and Java/OOP). Built a complete web platform from architecture through deployment as part of **Raknah**, a smart parking platform. Comfortable moving across the stack and quickly picking up new frameworks and enterprise tooling.

TECHNICAL SKILLS

- **Programming & OOP:** JavaScript, PHP, Python, Java (academic coursework — OOP fundamentals, data structures)
- **Databases:** SQL, PostgreSQL, exposure to MySQL and Oracle (coursework/labs); schema design, queries
- **Web Development:** Full-Stack Development, REST APIs, MVC Architecture, System Design
- **Markup & Styling:** HTML, CSS
- **Tools & Practices:** Git, GitHub, version control workflows, debugging, IoT integration, authentication (OTP)
- **Professional Skills:** Problem Solving, Collaboration, Cross-team Communication, Time Management, Teamwork, Working Under Pressure

FEATURED PROJECT

Raknah — Smart Parking Web Platform 2025 – Present

Co-Founder | Frontend & Backend Contributor — Graduation Project

- Co-founded a smart parking platform letting users search, reserve, and pay for parking through one web application.
- Designed the system architecture: **frontend** (HTML, CSS, JS), **PHP backend** with **REST APIs**, **PostgreSQL database**, and IoT (ESP32) integration for real-time slot monitoring and gate control.
- Built across the full stack — UI screens, API endpoints, and database schema design — as part of the development team.
- Defined key features: secure OTP-based entry, admin analytics dashboard, and integrated electronic payment.
- Ranked 5th of 15 finalists (116 nominations) at the Innovation in Applications Challenge 2026, under the patronage of the UQU President.
- Won incubation from UQU's Innovation Institute & Entrepreneurship Center and Wadi Makkah Technology & Investment Company.

EXPERIENCE

IT Support Specialist — Cooperative Trainee Mar 2025 – Aug 2025

Al-Lith General Hospital, Information Technology Department — Al-Lith, KSA

- Supported enterprise systems — EMR (Raqeem) and HR/Attendance (Hudoori) — managing user accounts, permissions, and system reliability in production.
- Contributed technical recommendations to a Self-Service Patient Kiosk initiative to improve patient flow and reduce wait times.
- Diagnosed and resolved technical issues across departments, strengthening troubleshooting, documentation, and cross-team communication in an enterprise IT environment.

EDUCATION

Bachelor of Science in Computer Science 2022 – Jun 2026

Umm Al-Qura University — College of Engineering & Computing — Al-Lith, KSA

GPA: 3.45 / 4.0 | Expected Graduation: June 2026

- Relevant coursework: Object-Oriented Programming (Java), Database Systems (SQL/relational design), Data Structures & Algorithms, Software Engineering.
